Lesson 3 Coding Activities

Download the zipped .java starter files with the program templates, and use them in DrJava or an IDE of your choice, to get a head start on the activity.

Come to the forum with your questions and to share your test cases.

1. Write the code to ask the user to enter their name and print the following message:

    Hi _____, nice to see you.

    Remember, you'll need to use the method println and Scanner class method nextLine.

2. Write a program that asks the user for three names, then prints the names in reverse order.

    Sample Run:

    Please enter three names:
    Zoey
    Zeb
    Zena

    Zena Zeb Zoey

3. Write a program that will ask the user to enter an adjective and a name. Print the following sentence, replacing the _____ with the words they entered.

    My name is _____. I am _____.

    Sample Run:

    Hi there. What is your name?
    Ada
    What adjective describes you?
    logical
    My name is Ada. I am logical.
